

61 ANALOG EXPERIENCE THE LABORATORY

We are glad to introduce Analog Experience THE LABORATORY 61.

This new member in the Analog Experience family has everything that made the success of this line: perfect Hardware/Software integration, a beautiful controller meeting the highest standards in the industry, great price for value.

Meeting demand for a longer keyboard offering robust construction, it is a great companion to the Analog Laboratory software, allowing to take full benefit of the 3500 sounds and 200+ scenes.

New feature in the Analog Experience series: The 61-key allows you to browse the presets from the LCD screen!

No need to look at the computer screen to select the best suiting Moog Modular V Acid Sequence.

Apart from that the 61-key looks very much like the 49-key. Only the software has been adapted: when you plug a 61-key, the interface of the Analog Laboratory shows 61 keys. So what you see is what you get.

> Hardware Keyboard

- . 61 keys with velocity and aftertouch
- . Controls: 2 encoders with press selection, 11 standard rotary encoders, 9 sliders, 23 switches, 1 modulation wheel, 1 pitch bend wheel
- . 4 touch-sensitive and pressure-sensitive pads.
- . Connectivity: Midi in & out, USB, Sustain pedal, Expression pedal, Aux footswitch, Breath controller input.
- . 32 digit LED screen.
- . Size: 875 x 20 x 65 mm
- . Keyboard weight: 7kg

> Premium MIDI controller features

- . High quality aluminum and wooden case
- . New editing options allowing for a quick set up with any application, thanks to the MIDI control center
- . Easy MIDI set-up directly on the keyboard

> Including Analog Laboratory software

- . 3500 synth sounds from Arturia classic synths collection
- . Fast filtering of presets: by Instrument (Minimoog, CS-80, ...), by Type (Bass, Pads,...) and by Characteristics (complex, simple, short, long...)
- . In-depth Preset Editing available for the owners of the Arturia Classic Synthesizers (Minimoog V, CS-80 V, etc.). Edit your sounds on the original instruments within Analog Laboratory.
- . 200 Scenes organized by musical genres offering complete live sets, including drum loops assignment to the pads, multi mode with keyboard split, and advanced arpeggiations.
- . TAE® powered sounds with unparalleled audio quality
- . Works as a standalone or a plugin within the main sequencer

Compatibility:

Windows XP / Vista / 7

MAC OS X.10.5 or higher (Universal Binary)

Required minimum configurations:

PC/Windows: 2 GB RAM 2 GHz CPU

Mac OS X : 2 GB RAM 2 GHz CPU

(Multiple cores recommended)

Formats: Stand-alone (ASIO™, Direct Sound™, Core Audio™) VST®, Audio Units™, RTAS™ (ProTools 6 and 7)

Copy protection: eLicenser (ex Synchrosoft). No USB port required but an Internet connection is necessary)
