

Dalet Control Panel

Dalet has designed the ideal alternative
to the mouse:

Modular Units

Users select only the unit(s) they need

Sleek and Compact Design

Easy to integrate into
existing studio environment

Illuminated Buttons

Activated functions are easy to spot

Intuitive Layout

Same as screen layout so users stay on track

Multi-Functional

Brings control to entire range
of station operations from recording
to editing to broadcast

Plug and Play

No configuration hassles

Single Serial Port Plug-in

Regardless of the number of modules used.
