Fits In the Palm of Your Hand!

CS-32 Physical Specifications

- Size - 8.8" x 9.25" x 1"
- Weight - 5 Lbs.

CS-32 MiniDesk Software for Macintosh and Windows

The new CS-32 MiniDesk™ is a miniature control surface for fast access to the most commonly used functions in most audio programs.

It works with Digidesign ProTools, Steinberg Nuendo, Cubase SX, VST, MOTU Digital Performer, Cakewalk Sonar, Sonic Foundry, Ableton Live, Propellerhead Reason, Merging Technologies Pyramix, Apple Logic, Garage Band and Most Audio Software Programs!

The CS-32's radically small size does not reduce its intense capabilities as an extremely powerful controller with 32 Dedicated Faders/Channel Strips for real-time control of volume levels, Mute, Solo, Track Arming and more.

The "Mini" has Tactile Transport Buttons, Cursor Keys and Weighted Jog/Scrub Wheel, just like the big guys.

Six Rotary Knobs give you hands-on, automation control of Panning and Plug-Ins. A full bank of quick function keys are ready for frequently used editing features.

MiniDesk takes up less space than a sheet of paper, but it's nobody's baby. Use it almost anywhere, even on the most crowded desk. It's perfect for portable recording applications with a laptop computer.

You can record, edit and mix your projects to perfection, using the CS-32 MiniDesk from JLCopper, the pioneer and proven leader in audio control surface design.

With a controller this small, you might want to get an extra one to keep in your car.

CS-32 MiniDesk Features
