

## Eclipse 24 Midnight Tactile Command Palette

Eclipse 24 Midnight is a mid-sized desktop controller with 24, next generation, Hi-Res, RGB, remotely-relegendable 64 x 32 LCD keyswitches, 10 bank buttons, and 17 additional function and navigation switches.

The hi-res LCD keyswitches can display text (up to 40 characters) and graphics using built in command driven serial interfaces. Software controls the interface, display and backlighting (64 colors). Data only needs to be transmitted when a change is made to the display or background colors. Eclipse 24 Midnight can be used as a stand alone controller, or it can be physically connected with other Eclipse Midnight Units.

Eclipse 24 Midnight has an interface card slot and requires a JLC interface card for USB, Ethernet, RS-232 or RS-422 connection. Eclipse 24 Midnight provides instant playback and control for broadcast automation, post production and other applications.

## SHARPSHOT - ULTRA-COMPACT COMMAND PALETTE

SharpShot™ is an ultra-compact desktop controller with eight, Hi-Res, remotely-relegendable 64 x 32 LCD keyswitches. They display text (up to 40 characters) and graphics using built in command driven serial interfaces. They integrate a graphical LCD with RGB backlighting and are capable of displaying up to 64 colors. Software controls the interface, display and backlighting. Data only needs to be transmitted when a change is made.

SharpShot provides instant audio or video playback and control for broadcast automation, post production and other specialized needs. They can alert users to changing operating conditions by showing different colors. This enables a customized user interface that reacts to the task at hand. It helps users work faster and reduces the possibility of human error in mission critical applications. It's unique, compact shape consumes minimal space.

SharpShot provides instant audio or video playback triggering in broadcast, post and other professional applications. Other uses include control systems, call centers, financial services, telecommunications, industrial controls, and automation systems.

Requires a JLC Compact interface card (see page 19) for USB, Ethernet, RS-232 or RS-422 connection. JLC Cooper has the most complete line of standard products using remotely relegendable keyswitches.
